

ARBITER MODELING SYSTEMS

Android/iOS Developer

We are looking for developers with proven experience in Android and iOS mobile application development.

Skills and requirements:

- 3+ years of experience developing mobile applications
- Ability to demonstrate mobile applications which you have developed
- Strong understanding of object oriented technologies
- Exposure to open source technologies

You will be working in a close-knit team, and will be exposed to all aspects of the software development life cycle.

Please forward your resume and academic transcript to Dr M Simakov at **jobs@arbsys.com**
