

ARBITER MODELING SYSTEMS

Software Developer

Our work has a strong R&D component focusing on industrial CAD/CAM software.

We are looking for software developers with the following experience:

- Java and C++
- Robotics/Mechatronics
- 3D computer graphics/OpenGL

You will be working in a close-knit team, and will be exposed to all aspects of the software development life cycle.

Please forward your resume and academic transcript to Dr M Simakov at **jobs@arbsys.com**
